While commerce generates the resources that sustains this freedom, it should not be forgotten that money while needed is not the end but only the means. The freedom to attain excellence should not be stifle and allow mediocracy to set in. We must sustain growth because as the world's leader we need strength of mind and purpose that will overcome terrorism and the unexpected to befall us as a test of our armor.

The settlement is more than adequate to compensate for whatever wrong has been done perhaps out of sheer in attention because of the company's focus. The damage, if any, has been will compensated. Let progress proceed unimpeded in an area that us young and promising for development - the product for the future.
